

# PARKING LOT HELPER INSTRUCTIONS

(read this first):

The general idea is to keep traffic moving at pickup and keep all the kids safe at pickup. After PREP starts, the Door Holders put out this yellow gate to keep parishioners from parking in the Linden street lot when going to church, thus keeping the lot open as a PREP pickup lane.

Your job is to arrive for pickup at 9:55am and open the gate so cars can pick up on the linden side of the school. You will then need to put out the orange cones (see picture) and stand by the Linden Ave. exit to make sure kids don't get hit by cars. Finally as pickup wanes (about 10:20) put the yellow gate stands on the cart by the building.

This is the gate that you open at 9:55 to let cars pick up kids on south side of bldg. but don't let them park in the diagonal spaces

This is the yellow gate cart to return gates to at 10:20

This is you. making sure that cars don't hit kids

These are the cones you put out so kids walk behind them and not in the way of cars

Ideal traffic flow for pickup
